

JETCONCEPTS

JET, SET, GO!

Get ready for Jet Concepts' most powerful anti-ageing aesthetic facial yet. The Jet PR3 Facial is your party go-to for year-end revelry, delivering youthful, clear and luminous skin in just an hour.

You've slathered on some of the priciest skin care in the market, but they don't work much magic on your skin, and you can't figure out why. One reason may be that your skin is clogged, so the active ingredients can't penetrate deep into skin. Another reason may be that the concentration of active ingredients is not high enough to warrant key benefits.

Jet Concepts has the answer in its new Jet PR3 Facial - named for its ability to protect, repair, regenerate and revitalise skin.

This hour-long treatment first intensely cleanses and preps skin with the Jet Stream device from Israel, then treats skin with the Jet Dual Ray machine from the US, the first device in Singapore able to deliver dual light energies to rejuvenate skin, promote cell healing and fight inflammation.

THE LUNCHTIME PARTY PREP

The new Jet PR3 Facial is named for its ability to *protect, repair, regenerate and revitalise* skin. This 60-minute treatment offers not only deep and thorough cleansing with the Jet Stream device, but also the first dual wavelength light treatment in Singapore that delivers both red and infrared light energies into skin.

1 DEEP CLEANSE

Exclusively available at Jet Concepts, the Jet Stream is used to clear sebum, dead skin cells and dirt from deep within pores. With blockages out of the way, this preps the skin to fully benefit from the Liquid Laser Essence – a spa-grade solution that contains high levels of apple stem cells, hexapeptides, active hyaluronic acid and caviar.

2 NOURISH

The Liquid Laser Essence is applied and massaged into skin during this step. A water-based product, the essence contains highly active ingredients with regenerative properties.

3 TREAT SKIN WITH DUAL WAVELENGTH LIGHT

Using the industry's first dual wavelength light – the Jet Dual Ray blasts powerful red and infrared light energies to stimulate skin cells to receive the benefits of the essence and double the absorption of its active ingredients. This procedure takes about 15 to 20 minutes, and rounds off with a refreshing acupressure massage.

Results: Instantly brighter and more luminous skin. Results can last up to a month. The 60-minute Jet PR3 Facial is available at Jet Concepts at \$238 for an introductory session (U.P. \$480).

WHY TRY THE JET PR3 FACIAL?

1. THE JET STREAM

Hailing from Israel and exclusively available at Jet Concepts, the Jet Stream clears cell blockages, sweeping up sebum, dead skin cells and dirt from deep within, so skin is now ready to receive nutritional benefits from your skin care!

2. THE JET DUAL RAY

Exclusive to Jet Concepts, this dual wavelength light is the industry's first, and uses red light at 650nm to 830nm, and infrared light at 900nm to 950nm. Red light fuels cells with essential energy while infrared light heals wounds and reduces inflammation. Used together for the first time in the Jet Dual Ray, the dual light energies are the ultimate skin fuel your skin needs to become more resplendent than before.

3. THE LIQUID LASER ESSENCE

In healthy skin, cells communicate effectively to ensure that every component functions properly, cellular renewal takes place, and skin is sufficiently hydrated. As we age, our epidermis is less able to control skin surface

water evaporation, causing skin to become drier, less supple, increasingly dull and more vulnerable to extrinsic aggressors. Skin's natural ability to repair and renew cells and sustain oxygen for cell metabolism also declines.

To combat ageing, the spa-grade Liquid Laser Essence contains five unique active ingredients:

- ① **Apple stem cells:** Rich in reparatives and metabolites, this rare species of apple stem cells ensures effective repair, renewal and increases the life span of aged skin cells.
- ② **Hexapeptides:** Useful in aiding cellular growth and ensuring proper cell function, hexapeptides also facilitate efficient cellular communication, enabling adequate oxygen consumption to support cell metabolism and collagen reproduction to achieve denser, firmer and younger-looking skin.
- ③ **Active hyaluronic acid:** Identical to the hyaluronic acid found in our skin, this ingredient melds well with our natural cells to restore balanced water levels – resulting in brighter and more supple skin.
- ④ **Fermented resveratrol:** Activates the sirtuin gene needed for the repair for DNA damage. Also increases type IV collagen, which firms skin, combats wrinkles and fine lines, and ensures that individual skin cells in the epidermis receive essential nutrients for healthy growth.
- ⑤ **Caviar:** Rich in proteins and amino acids, caviar ensures healthy cell metabolism, which is crucial for renewal and repair. The amino acids also strengthen the epidermis to achieve optimal levels of skin moisture and suppleness.

DON'T LEAVE OUT THE EYE, NECK AND DECOLLETAGE AREAS!

JET PR3 EYE TREATMENT

Duration: 30 minutes, Price: \$98

JET PR3 NECK TREATMENT

Duration: 30 minutes, Price: \$98

JET PR3 NECK & DÉCOLLETAGE TREATMENT

Duration: 60 minutes, Price: \$238

CAVIAR POTIONS

Add Jet Concepts' new Liquid Laser Serum and Cream to your skincare artillery to counter the detriments of skin ageing with caviar and other high-grade ingredients.

The newest, and most premium, range in the Jet Concepts arsenal of skincare products, Liquid Laser is designed to be your first and last line of defence against ageing. It contains over 70 active ingredients to deliver four benefits to skin – protect, repair, regenerate and revitalise.

THE LIQUID LASER RANGE

- 1 Protects** with antioxidants vitamin C and E to sweep up free radicals, isothiocyanate (or garden cress sprout)

to rid skin of toxins and pollutions, and carnosine and silymarin to prevent collagen from stiffening.

- 2 Repairs** with apple stem cells that speed skin healing, active hyaluronic acid that restores skin's moisture levels, and hexapeptides that boost cell metabolism and aid in collagen production.

- 3 Regenerates** and **revitalises** with peptides to speed collagen production, fermented resveratrol to increase the amount of type IV collagen in skin, and caviar to strengthen the epidermis.

SPECIAL PROMOTION!

A set of Liquid Laser Serum and Cream will set you back by only \$399 (U.P. \$238 each) ▼

◀ **What:** Liquid Laser Serum
Its functions: Boosted with higher levels of vitamin C and E, isothiocyanate, carnosine and silymarin, apple stem cells, hyaluronic acid and hexapeptides, this serum intensely protects and repairs skin.

Price: \$238

◀ **What:** Liquid Laser Cream
Its functions: Boosted with higher levels of peptides, fermented resveratrol and caviar, this is the go-to dream cream that intensely regenerates and revitalises skin.

Price: \$238

ABOUT JET CONCEPTS

Bridging the gap between medical treatments and over-the-counter products is Jet Concepts, a one-stop beauty solutions centre that provides affordable and effective skin solutions that tap into aesthetic expertise. Jet Concepts combines state-of-the-art technology with crème de la crème ingredients to give your skin the best treatment it needs. Interviews with our skincare experts are available upon request.

Jet Concepts' flagship store is situated at #03-03 Wheelock Place: (Tel: 6733 7055), with two more outlets at #B2-20/21 Raffles City Shopping Centre and #01-20 112 Katong.
